CAREER OBJECTIVE

Highly motivated and innovation-driven Computer Science undergraduate seeking internship and project opportunities to apply technical knowledge, design thinking, and problem-solving skills in real-world applications. Passionate about Artificial Intelligence, IoT, Data Analytics, Web Development, and sustainable technology solutions. Committed to building impactful products that solve real-world challenges through innovation and technology.

EDUCATION

Bachelor of Technology (B.Tech) – Computer Science and Engineering

Geetanjali College of Engineering and Technology (GCET)

Expected Graduation: 2028

CGPA: 7.75

Relevant Coursework

- Data Structures & Algorithms
 - Web Development
 - Digital Design
-

TECHNICAL SKILLS

Programming Languages

- Python (Beginner)
- C
- Java(Beginner)

Web Development

- HTML

- CSS
- JavaScript (Learning)
- Responsive Web Design

Data Analytics & Visualization

- Tableau
- Data Analysis Fundamentals
- Data Visualization

IoT & Hardware

- Arduino
- Sensors Integration
- Water Quality Monitoring Systems
- Piezoelectric Energy Generation Systems

Tools & Platforms

- Git & GitHub
- Tableau
- VS Code

PROJECTS

Smart Construction Planning System

- Collaborated with a team to develop a software solution for smart construction planning and project management.
- Focused on improving planning efficiency, resource allocation, and workflow management.
- Applied software development and problem-solving methodologies to address construction industry challenges.

ABLE LEARN – Educational Platform for Mute and Deaf Children

- Developed an inclusive learning platform designed to support the academic and social growth of mute and deaf children.

- Focused on accessibility, communication support, and personalized learning experiences.
- Aimed to bridge educational gaps through technology-driven solutions.

IoT-Based Water Quality Tester

- Designed and developed an IoT-based system to monitor water quality parameters such as pH, turbidity, TDS, and temperature.
- Displayed water quality classifications using an LCD interface.
- Project showcased at a National-Level Science Fair.

Piezo Electricity Generation System

- Developed during a Value Added IoT Course.
- Focused on sustainable energy generation using piezoelectric technology.
- Demonstrated conversion of mechanical stress into electrical energy.

WORK EXPERIENCE

Innovation Associate

Geenovate – Incubation Centre, Geetanjali College of Engineering and Technology

Responsibilities:

- Contributing to innovation and startup incubation initiatives.
- Supporting ideation, problem analysis, and solution development.
- Collaborating with mentors, entrepreneurs, students, and startup teams.
- Participating in innovation-driven projects and entrepreneurship activities.

CERTIFICATIONS

Deloitte Data Analytics Job Simulation

- Successfully completed Deloitte's Data Analytics and Forensic Technology Job Simulation.
- Gained practical exposure to data analysis workflows.
- Learned data visualization and business insights generation using Tableau.

- Developed understanding of real-world analytics applications and decision-making processes.

AI Tools Workshop – Be10X

- Successfully attended an AI Tools Workshop conducted by Be10X.
- Explored emerging AI technologies and productivity tools.
- Learned practical applications of AI in modern workflows and businesses.

Python Programming – NPTEL

- Certified Silver+Elite Badge Holder

IoT Value Added Course – ABTechVille

- Successfully completed a 7-Day IoT Value Added Program.
- Developed the Piezo Electricity Generation Project.

ACHIEVEMENTS & LEADERSHIP

Volunteer – Geenovate 2K25 Hackathon

- Volunteered in the 24-Hour Hackathon "Geenovate 2K25".
- Assisted in event coordination, participant support, and smooth execution of hackathon activities.
- Gained exposure to innovation, teamwork, and startup culture.

Second Prize – Herizon Ideathon

- Geetanjali College of Engineering and Technology.
- Developed a project focused on empowering and uplifting women through innovative solutions.

Consolation Prize – National-Level Science Fair "Vaisheshika"

- Awarded for the IoT-Based Water Quality Tester project.

Active Participant in Innovation & Entrepreneurship Programs

- Regularly involved in ideathons, workshops, startup activities, and innovation-driven initiatives.

INTELLECTUAL PROPERTY

Patent Published

Title: A Versatile Closure System Featuring Attached or Retractable Caps/Covers

Application Number: 202541120514

SOFT SKILLS

- Problem Solving
 - Design Thinking
 - Leadership
 - Teamwork & Collaboration
 - Communication Skills
 - Adaptability
 - Critical Thinking
 - Continuous Learning
-
